

The ASU Student Chapter of ASPRS
(American Society for Photogrammetry and Remote Sensing)
and School of Geographical Sciences

Presents a Brown Bag Presentation on:

Finding the Data You Need

ASU has extensive data repositories... but just WHAT kinds of data are available? And, how DO you get the data you may need for your research projects? Dissertation? Class projects?

Come hear four directors of key data repositories describe the types of data they have, and, how YOU can gain use of these data!

Corrina Gries from GIOS

(Director of Data Management, Global Institute of Sustainability)

Jana Hutchins from ISSR

(GIS Manager, Institute for Social Science Research)

Lela Prashad from the 100 Cities Project

(Director of 100 Cities Project, which specializes in urban remote sensing products)

Mary Whelan, from Hayden Library

(Geospatial Data Manager, Informatics and Cyber-infrastructure)

12 to 1:30 PM
FRIDAY, APRIL 4
ROOM 335 (SCOB)
(Feel free to bring your lunch!)
